EDUCATION

G. C. E Advanced Level |
Commerce Stream

Successfully Passed GCE Advanced Level
(Index No : 7541570)

2018

HND in Software
Engineering

BTEC HND In Software Engineering
Esoft Metro Campus - Kandy

2022 - 2024

PROJECTS

Developed a POS System

2023

Developed a comprehensive system for a toy company using C#. This system streamlined internal processes and enhanced operational efficiency, demonstrating advanced problem-solving skills and software development expertise.

Technologies Used: C#, Visual Studio, MS SQL Server.

Web-Based Solution for Freelance Photographer

2023

Designed and built a visually engaging website for a photographer. The site features a clean, user-friendly interface that effectively showcases the photographer's portfolio and services, leveraging modern web design principles.

Technologies Used: HTML, CSS, JavaScript, php, XAMPP, Visual Code, Github

Cloud-Based Online Platform UI/UX Design

2024

Developed a cloud-based online video platform using tools like Figma, Canva, and Photoshop. The project focused on designing user-friendly interfaces for features such as video discovery, library management, and playback controls, with an emphasis on enhancing user experience through iterative design, ensuring accessibility, and ease of use across devices.

Technologies Used: Figma, Canva, Draw io, Photoshop

Travel Bus – Bus Reservation System

2024

Travel Bus is a Java-based bus reservation system designed for easy seat booking and schedule management. With real-time updates and a user-friendly interface, it simplifies the travel planning process, showcasing my skills in Java programming and system development.

Technologies Used: Java, Visual Studio, Command Prompt
